Community
College

Since 1973

Southeast Community College

Faculty Association

Representing faculty since 1973

For More Information

About Us

The Faculty Association...

began in 1973, when the state community college system was formed. Since then, the Association has acted as the sole representative and bargaining unit for all Southeast Community College faculty members. In this role, the Association is responsible for negotiating each collective bargaining agreement, supporting faculty in disciplinary proceedings, and enforcing contract terms through the filing of grievances and complaints through the Commission for Industrial Relations.

Member Benefits

Strengthen the Association...

A strong Association ensures the terms of the collective bargaining agreement are fair and that compensation and working conditions are comparable to that of other faculty in the Nebraska community college system.

Legal Advice...

Faculty Association's legal counsel will provide free legal counsel for most employment-related issues. Faculty grievance representatives are available to assist you in resolving your employment disputes.

For personal matters, association members receive one free hour of legal service each contract year and significant discounts on additional services.

Short-Term Disability Insurance...

Through an insurance policy with Mutual of Omaha, we provide a partial source of income when an employee becomes unable to perform their duties.

Some conditions apply; go to the Membership Benefits tab on the SCCFA.org website for more information.

Get Involved

Participate in Mutual Interests & Bargaining Process

Vote to accept or reject contract offers and vote for campus officers.

Participate in Social Events

Attend social events, like the annual banquet.

Volunteer on your campus

- Attend and help host social events
 - Volunteer as a faculty liaison to the Board
 - Volunteer in some other capacity
- Contact your campus officers for more information!
